

PIR Alarm Motion Sensor - Cordless

TGA Registered
RCM Approved
AS/NZS 61000.6.3.2012

PRODUCT CODE:

MED-MS-02P-W6T(X)KIT or -W3T(X) - Wireless PIR with 9V Power Pack

MED-MS-02B-W6T(X)KIT or -W3T(X) - Wireless PIR with 9V Battery

Indigo Care's Cordless Out of Bed PIR Motion Sensor detects movement with its narrow curtain beam. When a resident crosses the beam's path, the staff will be alerted through their nurse call system. The motion sensor can be used as an Out Of Bed/Chair or Room Entry/Exit sensor.

It has an exclusive ID encoded RF Transmitter that communicates with either our Wireless Receiver (RRU) or Dual Function Universal Call Point (UCPV5.1). To power the PIR, you have the choice of using a 9V Powerpack or a 9V Battery.

It's easy to install, can be wall mounted with the attached bracket & has a swivel arm which allows for a 360 degree rotation. The unit also has a separate ON/OFF switch to alleviate false triggers and for manual activation when needed.

To set up, you will need to program the PIR to the Wireless Receiver or Call Point by following the printed instructions. Once programmed, when activated, the PIR will trigger the nurse call point when activated within the transmitting area. It is easily integrated to most nurse call systems.

KEY SPECIFICATIONS:

- Nurse Call, DC Output & Battery Compartment
- Frequency: 433.92MHz
- Transmits up to 30m (line of sight)
- Power On/Off Switch
- Horizontal Beam Angle: 6 Degrees, Narrow Beam
- Warranty: 1 year

CORDLESS RANGE:

- Cordless Receiver (RRU)
- Cordless Transmitter (RTU)
- Cordless Under Mattress Sensor Mat
- Cordless Floor Sensor Mat
- Cordless Cushion Sensor Mat
- Cordless Chair Mat
- Cordless Waterproof Neck Pendant
- Cordless Waterproof Wrist Pendant
- Cordless Bed Sensor Mat
- Cordless Suspense Point
- Cordless Doorway Sensor
