**MED-MS-02P-6T(X)KIT- SINGLE Wired PIR with 9V Power Pack**

**MED-MS-02B-6T(X)KIT-SINGLE Wired PIR with 9V Battery**

**MED-2MS-02P-6T(X)KIT – DUAL Wired PIR with 9V Power Pack**

**MED-2MS-02B-6T(X)KIT – DUAL Wired PIR with 9V Battery**

**\*available with 3.5mm jack plug upon request**

Indigo Care's Wired Out of Bed PIR Motion Sensor detects movement with its narrow curtain beam. When a resident crosses the beam's path, the staff will be alerted through their nurse call system.

The motion sensor can be used as an Out Of Bed/Chair or Room Entry/Exit sensor.

It's easy to install, can be wall mounted with the attached bracket & has a swivel arm which allows for a 360 degree rotation. The unit also has a separate ON/OFF switch to alleviate false triggers and for manual activation when needed.

The motion sensor is powered by either a 9V Powerpack or a 9V Battery. The kit includes a 3 metre cable, with a 6.3mm mono jack, that connects the PIR to your nurse call system.

It is available as a Single if used on either side of the bed or Dual PIR on both sides of the bed.

### KEY SPECIFICATIONS:

- Nurse Call, DC Output & Battery Compartment
- 3 metre cable with 6.3mm Mono Jack Plug
- Power On/Off Switch
- Horizontal Beam Angle: 6 Degrees, Narrow Beam
- Warranty: 1 year
