

TV INTERFACE CONTROLLER

Key Specifications:

- Power source: 12VDC or 24VDC (Factory setting)*
- Powered from Wall Socket or external power supply using terminal block.
- Interfaces with TV using Infra-red(IR) or RS232 Serial protocol.
- Controls five basic operations of a TV: *TV ON/OFF, Volume Up, Volume Down, Channel Up, and Channel Down.*
- Command up to 32 functions with Smart TV.
- Expandable TV brand compatibility by capturing new IR commands from the TV remote controller.
- Compatible with major TV brands: Samsung, Philips, Sony, LG, Panasonic, Hisense, and TCL.

- Indigo Care's TV Controller has an optional connection using RS323 (Smart TV) or IR LED lead (Smart and Non-Smart TV).
- TV Controller is designed to cater for different electrical installations.
- The device is designed with a smart micro-chip so that it can interface with any Smart and Non-Smart TV using IR Protocol.
- Dim: 73 x 73 x 28 mm . GW: 70 g. Easily hidden away from patient's line-of-sight.
- The kit includes TV Controller x 1, IR LED Lead x 1 (not required with RS232 connection), Audio Cable x 1.

- **Easy to Use**
- **Plug-and-Play**
- **Cost Effective**
- **Integrates to most Nurse Call Systems**
